Andhra Pradesh, India

SUMMARY

B. Tech graduate with a good foundation in Python, data analysis, along with hands on experience in backend and web application development using Fast API and Stream lit. Skilled in Power BI, Excel, and database management, with an understanding of Software Development Life Cycle (SDLC) practices. Familiar with using AI tools and modern development assistants to improve productivity, automate tasks, and solve technical problems efficiently. A quick learner with strong analytical and problem-solving skills, with a strong interest in Python development, data analytics, and backend development. Looking for an opportunity to apply my technical skills, gain practical industry experience, and grow as a Python Developer.

TECHNICAL SKILLS

Technical Language: Python
Framework & Libraries: FastAPI, Streamlit, Pandas, NumPy, Matplotlib
Data Analysis & Visualization: Excel, Power BI
Data Base: SQL, MySQL
Tools: SQL workbench, VS Code, Power BI desktop
Version Control: Git, GitHub
Object-Oriented Programming (OOP)
Software Development Life Cycle (SDLC)
Soft Skills: Strong oral and verbal communication, Interpersonal, Analytical, Self-Motivated, Multitasking, Quick Learner, Professional Email Etiquette

EDUCATION

Bachelor of Technology (B. Tech) — Computer Science and Engineering *2022 – 2026*
Lendi Institute of Engineering and Technology, Vizianagaram, CGPA: 8.03

Intermediate — MPC *2020 – 2022*
Narayana junior College, Paradesipalem, Percentage: 91%

INTERNSHIPS

Web Developer Intern — Zidio Development *June 2026 – Sep 2026*
- Assisted in the **design, development, and deployment of responsive web applications** using front-end and back-end technologies.
- Built reusable UI components and optimized front-end code, improving **page load performance by ~30%**.
- Participated in **code reviews, debugging, and performance optimization** activities.
- Supported project documentation and followed **Agile development methodologies**.

GEN-AI Virtual Internship — Aws Academy *Oct 2025 – Dec 2025*
- Gained practical exposure to **Generative AI concepts, tools, and applications** through hands-on learning.
- Explored the use of Generative AI for **improving productivity and supporting software development tasks**.
- Worked with AI tools to understand **prompting techniques and effective interaction with AI models**.

PROJECTS

1. **Hospital Management System** — Web Development Project
Technologies: Python, Fast API, Stream lit
- Developed a hospital management web application using **Python, Fast API, and Stream lit to manage and organize** hospital related information.
- Implemented features to **add, update, view, and manage patient and hospital-related information**.
- Applied **Python programming and problem-solving skills** to develop practical functionality for the application.

Hotel Reservation Operations Analytics — Power BI Project

Technologies: Power BI
- Created an **interactive Power BI dashboard** with KPIs and visualizations to make hotel operations easier to understand.
- Cleaned and transformed the dataset to prepare the data for **accurate analysis and reporting**.
- Analyzed hotel reservation data to identify **booking patterns, revenue trends, and cancellation behavior**.

CERTIFICATIONS & INVOLVEMENT

Python Foundation Certification — Infosys Springboard (2024)
HTML5.0x: HTML5 and CSS Fundamentals — Edx (2024)
Step English Course — The Hindu Group (2023)
Participated in Smart India Hackathon — (2024)
